DETAILED ACTION

This communication is responsive to amended dated 4/22/2005.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C 121:

- I. Claims 1, 4-7, and 15-20, drawn to a pixel structure for a thin film transistor array, classified in class 349, subclass 43.
- II. Claims 8, and 10-14, drawn to a method of fabricating a pixel structure for a thin film transistor array, classified in class 349, subclass 187.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, when manufacturing a pixel structure, in order to prevent the pixel storage capacitor from leakage, one of the methods is to form an amorphous silicon layer below the contact window, and use the amorphous silicon layer as a stop layer to prevent the gate insulating layer below the contact window from etching through. Invention II has separate utility such as not forming the contact window above the pixel storage capacitor, and therefore the leakage will not occur even if the passivation layer and the gate insulating layer are etched through.

Art Unit: 2871

Because these inventions are distinct for the reasons given above, and the search required for Group I and II differently, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
